[Ute BC Talking Points 7 22 15 Air Quality Discussion 7-9-2015.docx](#)
[RA briefing options on Uinta Basin emissions control 7-7-2015.docx](#)

Welcome Back Jody –

Attached is an updated version of the Uinta Basin talking points that we sent to Cindy today for Shawn's briefing book. We made a few edits based on our briefing with him this morning. Based on the briefing, it was decided that it would not be a "Consultation," but this session of the meeting would be an "Air Quality Discussion" with the Tribe. You should see this change in Cindy's updated agenda. Shawn is supportive of a FIP and asked us to start gearing up for one and determine what we need him to do.

Just as an FYI, also attached is the briefing paper we used this morning to talk to Shawn about whether a consultation should be done or just a discussion. You can check in with Scott before the OPRA meeting at 9 am on Monday, if you want more info on the briefing.

FYI – We created a Uinta Basin folder on the G:drive under Air Program Management, so us managers have a common place to put the documents we edit/provide.
